Earn a Certificate in Organizational Development **Register Now – May 22nd!**

8:30 AM – 4:30 PM

Organizational Analysis & Design

This course provides participants with the basics on how to collect information (with surveys, interviews, etc.), how to analyze the results, and how to use that information to build support for your efforts. Participants recognize the importance of accurately identifying the source of problems and create solutions. Participants use problem solving tools to analyze problems and identify solid solutions.

What you will learn:

- When and How to Do an Organizational Analysis
- Define tools and process for conducting research
- Learn to use organizational assessments that contain high technical quality and relevance
- Processes Assessing Organizations – What, How, and When
- Purposes of Assessment
- Planning A Sound Evaluation
- Developing Measures
- Collecting, Analyzing, and Interpreting the Data
- Communicating the Results
- Evaluating and Reporting with Integrity

How you will benefit:

- Know the Most Effective Options for Collecting Data in a Social System
- Acquire Sound Basics in Understanding, Interpreting and Sharing Statistical Information
